Haliburton Highlands Rural Health Hub

We'd love to hear from you!

Haliburton, October 2, 2017 – In the fall of 2016 Haliburton Highlands Health Services (HHHS) was designated as one of five rural health hub (RHH) pilot sites in the province. Since the announcement, HHHS has been working with its community partners as well as the Ministry of Health and Long-Term Care, Health Quality Ontario, the Central East Local Health Integration Network (LHIN) and the Ontario Hospital Association to get the initiative off the ground.

The Goal

To define and develop a “made-in Haliburton” Rural Health Hub model that enhances patient experience across the continuum of care.

Community Input

Over the past several months the RHH has conducted community consultations with local Service Providers, Patient Partners, Political Allies, Regional Affiliates, and Internal/External Stakeholders. The RHH is now looking for community input. Between October 2nd and 15th a questionnaire is available for the public to complete, either online at <https://www.surveymonkey.com/r/YRT7J5W> or at the following locations:

Dollo’s IGA	Midwifery Services
Foodbanks; Haliburton, Minden, Highlands East	Minden Valu-Mart
Haliburton Foodland	Municipal Offices; Haliburton, Minden Hills, Highlands East, Algonquin Highlands
Haliburton Highlands Health Services – Business Office – Haliburton & Minden	Ontario Early Years Centers
Haliburton Highlands Health Services – Community Support Services Office	Point in Time
Haliburton Highlands Health Services - Mental Health Services	SIRCH Community Services
Haliburton Independent Grocer	The Haliburton Family Health Team
LHIN- Home & Community Supports (formerly CCAC)	

Please take a moment and the opportunity to help inform the development of the Haliburton Highlands RHH. Your opinion matters.
