Dr. Devon Tilbrook

For patients of Dr. Tina Stephenson

The Physician's of the Haliburton Family Medical Centre and Allied Health Professionals of the Haliburton Highlands Family Health Team are committed to offering you ongoing primary healthcare upon my retirement.

This may increase wait times across the clinic for all patients.

Every effort will be made to provide timely care.

See FAQ's below:

What does this mean for me?

You will remain a patient of the physician's practice, but not be designated to one physician or nurse practitioner (unless you are already under the care of a nurse practitioner). Your care will be provided by the team.

Who do I call to book an appointment or for a prescription renewal?

When you require an appointment you can call the clinic at 705-457-1212, option 5, and speak with any member of our team support.

Some medication renewals will require an appointment, but not all. We ask that you request any renewals of medications during appointments, otherwise, ask your pharmacy to fax your prescription renewal to the clinic.

Who will coordinate my healthcare?

The team will be responsible for overseeing your care. Your health records will remain with us. Any tests or consultations ordered by Dr. Stephenson will be returned to us as usual and will be reviewed daily by our "Doc of the Day". Brenda and Ashley will still be your primary contacts, but anyone can book your appointment or provide nursing care based on which provider you are seeing.

If you have further questions, please email our Office Manager at;

kim.robinson@hhfht.com

Or call;
